As American Collishe in Tubers:—After a contest of seasy two years with All Pasha, the bigolod Minister of Foreign Affairs, a college has been founded in Constantinople, which, if successful, will do much foward the regeneration of Turkey. It is designed to furnish a liberal collegists education, to all plasses, and is wholly unscetarian. The highest institutions of instruction, in the Ottoman Empire, do not rank with a New England high school. This new college was opened about two months ago, and thus far promises well. It was established by the munificence of Mr. Christopher Robert, of New York, and is under the charge of Res. Dr. Hamilin, the eminent American missionary.

Editors Chicago Tribuna:

My attention was to-day called to the following paragraph in the Doby Hinois State Register of the 17th inter.

The Washington Correspondent of the Chicago Tribuna writes to that paper as follows:

"It is runnored that a late Treasurer of Hinois is making immense sums of money by speculating in cotton with a sort of exclusive permit at Memphis. The question is, who gave him such permit; and is it proper that be should have it? Has he not made "cough out of his Hilmois office, into which he went as poor as a rat, but came out as the story of the second of the war, when other people are not permitted to speculate 2 "red?" Will not Joe Forest be a little more specific, and untangle the Anakes of cotton to which he at ludes?

incuits of the editor of the Register upon the second paragraph, which he ascribes to your paper.

In the first place I am empide to admit that it does not appear on the face of the libel that I am the ex-Treasurer of Illimois alluded to. But having been a Treasurer of that State, and my official conduct having been made the subject of party criticism, it is not unlikely that "Joe. Forrest" meant me. There are, however, considerations which induce me to hope that you were not personally cognizant of the appearance of the article in your paper. For you, sir, are well a sware that, on my official conduct being attacked, I stepped promptly forward, and no only challenged but demanded a full and thorough investigation of my course and conduct as Treasurer, at the hands of the Legislature; not only no, but that I demanded the Committee should consist exclusively of Democrate—I being a Republican—and that, in compliance with my winher thus expressed, a Committee of Pire, a majority of which were Democrats, were raised by the Senate at the essession of the Legislature of Illinois, 1802–8, with full power to sift my official career to the bottom; and that the report of that Committee was a triumphant vindication of my reputation, in terms quife as complimentary as any gentleman could have desired. What makes me hope that you, sir, were not party to the publication of the alander above quoted as appearing originally in your paper, is the fact that the report of that Committee appeared in full in your own paper, amongst your regularly published proceedings of the Legislature.

The paragraph in question, however, tharpes, seemsleg that it refers to me, that I

LOANS OF THE STATE BANK.

"The authority from which I have quoted says: The state Bank, to obtain favor from the Legislature, was compelled to make loans to the State, and to advance its bills for Auditor's Warrants for a large amount, to defray the ordinary expenses of Government; the revenues being again insufficient, and the Legislature afraid to increase the taxes. When I came into office, says Gov. Ford, (and this was in January, 1842) the State owed the Bank, on this account, two hundred and ninely-four thousand dollars. A somewhat similar connection with the State assisted ninch to break the Shawnestown Bank. That Bank was first induced to lend the State about \$50,000, to finish the State House; and in September, 1838, goon the recommendation and urgent request of Gov. Carlin, and upon his promise to deposet \$50,000 in internal improvement Bonds, as collatoral security, which promise to deposet \$50,000, which was never performed, the Bank was induced to lend the Commissioners of Fubile Works the further sum of \$500,000, which was never repaid to it."
